

REMARKS

The amendment of paragraph [0006] in the specification replaces “surcidces” with “surfaces” and “regulation “ with “leads to poor regulation”. The amendment of paragraphs [0009] and [0010] replaces “In” with “in”. The amendment of paragraph [0011] replaces “on on” with “on one end thereof”, and the amendment of paragraph [0027] replaces the symbol “ε” with the letter “a”. All of these changes are supported by the specification as originally filed.

It is believed that the amendments embody the correction of formal matters only and do not change the scope of the claims. The amendments are believed to require no significant additional work on the part of the Office and their entry is requested.
